

Calculator XML

- Code the app screen on the right. It has a TextView at the top and 12 buttons at the bottom.
- Use the Android Visualizer here: <https://android-layout-visualizer.barmej.com/>
- You can pick different colours and sizes.
- Here is a link to a Hex Colour Code generator: <https://htmlcolorcodes.com/>

Save your code in a Goggle Doc or a Notepad file in your OneDrive.

Starter Code:

```
<LinearLayout
    android:orientation="vertical"
    android:layout_width="match_parent"
    android:layout_height="match_parent">

    <LinearLayout
        android:orientation="horizontal"
        android:gravity="center"
        android:layout_height="wrap_content"
        android:layout_width="match_parent">

        <Button
            android:text="A"
            android:layout_width="wrap_content"
            android:layout_height="wrap_content"
            android:textSize="30sp"
            android:textColor="#000000"
            android:background="#e7edfe"
            android:layout_margin="10dp" />
        <Button
            android:text="B"
            android:layout_width="wrap_content"
            android:layout_height="wrap_content"
            android:textSize="30sp"
            android:textColor="#000000"
            android:background="#e7edfe"
            android:layout_margin="10dp"
        />
    </LinearLayout>

    <LinearLayout
        android:orientation="horizontal"
        android:gravity="center"
        android:layout_height="wrap_content"
        android:layout_width="match_parent"
    >

    <Button
        android:text="C"
        android:layout_width="wrap_content"
        android:layout_height="wrap_content"
        android:textSize="30sp"
        android:textColor="#000000"
        android:background="#e7edfe"
        android:layout_margin="10dp" />
    <Button
        android:text="D"
        android:layout_width="wrap_content"
        android:layout_height="wrap_content"
        android:textSize="30sp"
        android:textColor="#000000"
        android:background="#e7edfe"
        android:layout_margin="10dp"
    />
</LinearLayout>
</LinearLayout>
```
