

## Artist Statement – Sustainability Project

By (name of person in class) \_\_\_\_\_ and

(another name of person in class) \_\_\_\_\_

### Media Used

The background layer of our sustainability artwork contains a (noun) \_\_\_\_\_, which was created out of a (adjective) \_\_\_\_\_ (noun) \_\_\_\_\_ and a (adjective) \_\_\_\_\_ (noun) \_\_\_\_\_. This layer of my artwork is intended to create a feeling of (emotion) \_\_\_\_\_ in the viewer with it's (adjective) \_\_\_\_\_ brushwork.

On top of the background, our sustainability artwork had a middle ground which contained (noun) \_\_\_\_\_ which is ("ing" verb) \_\_\_\_\_. This was meant to symbolize the (action word) \_\_\_\_\_ nature of the Earth. That is why we created this layer out of (adjective) \_\_\_\_\_ (noun) \_\_\_\_\_; it seemed very appropriate.

In the final layer, the foreground is centered around the most important topic in our project: the crisis facing (adjective) \_\_\_\_\_ (noun) \_\_\_\_\_. We created this layer out of (number) \_\_\_\_\_ (colour) \_\_\_\_\_ (noun) \_\_\_\_\_ to show the importance of the crisis.

## Problems Faced

One of the biggest problems that we faced in our sustainability project was the (verb) \_\_\_\_\_ (noun) \_\_\_\_\_. Instead of looking (adjective) \_\_\_\_\_, as we had intended, it always seemed to end up looking (adjective) \_\_\_\_\_ which didn't highlight our issue the way we wanted.

Solving this problem was not easy: we had to try (number) \_\_\_\_\_ solutions before we found one that worked. One of the things we tried was (verb) \_\_\_\_\_, but it seemed to make our artwork look more like a (adjective) \_\_\_\_\_ (noun) \_\_\_\_\_ than what we wanted. Finally, we found a video of (verb) \_\_\_\_\_ on YouTube, which helped us to complete our project. Now we feel really (emotion) \_\_\_\_\_ when we look at our artwork.

## Inspiration

One of the things that most concerns us when we consider the human environmental impacts on the planet Earth is the (adjective) \_\_\_\_\_ (noun) \_\_\_\_\_. They are facing (verb) \_\_\_\_\_ because of (environmental impact) \_\_\_\_\_. We wanted to raise people's awareness about this (adjective) \_\_\_\_\_ topic by creating a (emotion) \_\_\_\_\_ piece to inspire everyone to take action to solve this crisis in (length of time) \_\_\_\_\_.
