As a Neanderthal Poet,  
how do you get your  
primitive friends to  
guess the word  
“campfire” using only  
words with one  
syllable?

You might say:

Hot place where  
you roast soft  
white cube.

You can only give  
clues by speaking  
in single syllables

You will be given  
a word or phrase.

Produce 3  
Neanderthal  
Clues for your  
word.

Clue #2  
Big thing that  
scare me.

### Clue #3

but huge make big  
stomp and squish  
my aunt.
