

# Signature

An online C++ compiler is found here: [https://www.onlinegdb.com/online\\_c++\\_compiler](https://www.onlinegdb.com/online_c++_compiler)

This is an example of a C++ program:

```
#include <iostream>
using namespace std;

int main ()
{
    cout << "Ida Knowe"<<endl;
}
```

Make a program that displays your name, grade and school address. Add a quote that you like to the end.

When complete, your code will print something like:

```
Ida Knowe
Grade 12 Student
Brampton Centennial Secondary School
251 McMurchy Ave S, Brampton, ON L6Y 1Z4
```

```
"If you have a garden and a library, you have everything you need."
- Cicero
```

Remember to save a copy of your code in a Word document or google doc.
